To Book 22

I came to the same conclusion as you in selecting Thomas Bosanko b1684/5 (labelled as Thomas[5] in my 'History') as the most likely father for your Samuel. The problem is that we currently have no direct evidence, and we will need to build up a reasonable case based on indirect references. You have already highlighted one serious difficulty trying to locate a mysterious nephew (Thomas) for Thomas[5] and I think that there are other questions arising from this will that will need to be explained. So, for now, it must remain just a theory, and we will see if we can find further supporting evidence as we progress. I think we need to keep working on both ends of the probable connection for now, and I can certainly help with some further information regarding the probable parents, Thomas[5] & Mary.

Once again, it was another Will from a seemingly separate family that proved crucial. I obtained a copy some years ago, and the following is my transcription (there are a few gaps as the 'old English' of the Will is not easy to read):

Will of Samuel Polkinhorne written 17th January 1720/1; proved on 26th April 1721

In the name of God Amen I Samuel Polkinhorne of the parish of Crowan in the County of Cornwall, yeoman, being in perfect health & of sound & perfect mind & memory thanks be to God but considering the uncertainty of this mortal life do make & ordain this my last will & testament in manner & form following.
Item I bequeath my soul into the hands of Almighty God my creator hoping through the merits and mediation of Jesus Christ my saviour & redeemer (after this painful life is ended) having eternal life in the world that is to come.
Item I give & bequeath unto Charity my beloved wife the sum of five pounds yearly during the ????? of her natural life, to be paid her by quarterly payments equally to be divided by my executor hereafter named to be accounted from the day of my death. And in case my said wife shall go off from my executor to live then my will and pleasure is ????? further give & bequeath unto ??? of one of my beds the bolsters pillows sheets blankets & furniture ???? belonging for and during so long ??? case she shall happen to live and at the time of her death the same to remain & ????? to the sole & only use benefit & ????? of my executor as his own proper goods.
Item I give & bequeath unto my son Thos. Polkinhorne twenty shillings to be paid him within one year after my death by my executor hereafter named.
Item I give & bequeath unto my daughter C?????, wife of Thos. Marks the sum of three pounds of lawful money to be paid her within one year after my death by my executor hereafter named.
Item I give & bequeath unto my daughter Mary wife of Thos. Bosanko the sum of seven

pounds ????? shillings of lawful money of great Britain to be paid her within one year after my death by my executor hereafter named.
Item All the rest of my goods & chattels not herein or hereby given or bequeathed I do hereby give & bequeath unto my son John Polkinhorne whom I do hereby make & ordain the whole & sole executor of this my last will & testament revoking all former wills by me heretofore made. In witness whereof I have put my hand & seal this seventeenth day of January in the year of our Lord one thousand seven hundred and twenty.
Signed sealed & published in presence of us:

William
Davies S
aml. Polkinhorn (sign & seal of)
????? Davies
Saml. Callamy

Appended inventory value £115 raised by Henry Taylor & William Davies.

Clearly, for us, the most important detail is the 5th 'Item' which enables us to identify the wife of Thomas[5] as Mary Polkinhorne (the marriage appears in the Crowan parish records for 12th February 1708/9 as simply "Thomas Bosankoe & Mary.") You might also notice that the members of the Davies family witnessed the Will and drew up the inventory (you may remember this family appear in my 'History', associated with the Bosankoe family in Crowan.) It is also cleat that the testator was a relatively wealthy man bacause £115 was a very considerable sum at the time.

A little digging into the COPC records suggests that Samuel Polkinhorne was probably born in Breage in 1649 and married Charity Thomas in Breage in 1687, when he would have been aged about 37. It also seems that he had previously been married to Mary Clise, with whom he had several children, the last being Mary Polkinhorne born in 1685 in Breage. We can say then that Mary never really knew her biological mother (who died in 1686), and grew up knowing Samuel and Charity as her parents. At the time of her marriage, Mary would have been about 21 or 22, and her husband, Thomas[5] Bosankoe, aged about 25; exactly according to tradition. As you have noticed from the records, Thomas & Mary had several children and I would suggest the following baptism records are theirs (let me know if you don't have the details):

1709 Thomas
1710 Ann
1714 Thomas

pounds ?????? shillings of lawful money of great Britain to be paid her within one year after my death by my executor hereafter named.

Item All the rest of my goods & chattels not herein or hereby given or bequeathed I do hereby give & bequeath unto my son John Polkinhorne whom I do hereby make & ordain the whole & sole executor of this my last will & testament revoking all former wills by me heretofore made. 1716 Alce
1718 Allice
1723 Dorcas
1726 William

I think it is reasonable to draw several conclusions now. It appears that their first child, Thomas, must have died in infancy as the next boy was also named Thomas (similarly with Alce born 1716 and Allice born 1718), and the burials are missing from the records. You will also notice the two gaps in this 18 year span of childbearing, and it is likely that another child was born about 1712, and yet another about 1720/1, with no baptism records surviving for these. We know that the first son was named after his paternal grandfather (Thomas^{3}), and the first daughter probably after her paternal grandmother {assumed to be Ann (unknown)}, according to the tradition of the time. The next born son (probably one of these missing baptisms from 1712 or 1720/1) was then traditionally named after his maternal grandfather. So, I concluded that the above legacy to daughter Mary in Samuel's will above is very strong supporting circumstantial evidence that your Samuel was indeed the son of Thomas^{5} and Mary Polkinhorne, named after his maternal grandfather Samuel Polkinhorne, and that he was born either in 1712 or 1720/1. Although unlikely, we also cannot rule out perhaps one possible further birth after 1726 based on Mary's age.

So far, so good, and I would be interested to hear if you agree with my reasoning.

Regards, John.

addresses of the record custodians, and some brief remarks relating mainly to the completeness and time period of the records. Everyone doing American research would do well to secure this valuable tool and use it. Another book I would recommend is Thomas Jay Kemp's *Vital Records Handbook* (Baltimore: Genealogical Publishing Co., 1988). This provides addresses of vital records offices, starting dates of the records, fees, and *copies of application forms.*

B. Before State-Wide Registration

Locating extant vital records in any state or registration area prior to the adoption of state-wide registration laws is usually a more difficult task. There were many differences in custom and practice even within the same state. Some places kept records very early; others kept no records at all until required to do so by state statute.

The most exhaustive attempt to compile a list of available vital records in the U.S. was made by the federal government's Works Projects Administration (WPA) as part of the Historical Records Survey projects in the late 1930s and early 1940s. Forty states participated in this program. The participants included all states *except* Alaska (not then a state), Connecticut, Delaware, Hawaii (not then a state), Maine, Maryland, Ohio, Pennsylvania, South Carolina, and Vermont. Each participating state published, as a result of the project, inventories or guides to the vital statistics records available for various counties, cities, and towns within its boundaries and told where and how they were filed. A "WPA List of Vital Statistical Records" issued in 1943 shows the publications for each of the participating states.

Copies of these inventories are available at various larger libraries and historical societies, especially in the states concerned. A list of the several inventories, including guides to inventories of church records (see chapter 20), follows:

ALABAMA:
"Guide to Public Vital Statistics Records in Alabama: Preliminary Edition." March 1942.
"Guide to Vital Statistics Records in Alabama: Church Archives." May 1942.

ARIZONA:
"Guide to Public Vital Statistics Records in Arizona." August 1941.

Regarding the will of Thomas 1784, I do indeed have a copy of it, but unfortunately my scanner is playing up so I can't send it to you, but the following is a transcription of the detail of the will:

Thomas Bosanko of Crowan (no occupation given)
"I give, devise and dispose in manner following:"
"First I give to Darcus Juel the sum of two shillings & sixpence" (this line appears to have been inserted as an afterthought)
"1. to Allis Rogers the sum of two shillings & sixpence.
2. to Samuel Bosanko the sum of five shillings.
3. To Florence Bosanko one shilling. To her son Thomas Bosanko the sum of one shilling.
4. To John Bosanko of Wendron to have from Bolithoe four pounds a year.
Also, I give to Thomas Bosanko whom I likewise constitute, make, and ordain the sole executrix of this my last will and testament, all and singular my lands, messuages, and tenements."
witnessed by: William Juiell, Allis Rogers, Thomas Bosanko

Clearly, the executor and main benificiary, Thomas, is <u>not</u> the same Thomas referred to in item no.3 (son of Florence)
Hope this is of some help. Best wishes, John.

Polkinghorne Bosanko

I came to the same conclusion as you in selecting Thomas Bosanko b1684/5 (labelled as Thomas[5] in my 'History') as the most likely father for your Samuel. The problem is that we currently have no direct evidence, and we will need to build up a reasonable case based on indirect references. You have already highlighted one serious difficulty trying to locate a mysterious nephew (Thomas) for Thomas[5] and I think that there are other questions arising from this will that will need to be explained. So, for now, it must remain just a theory, and we will see if we can find further supporting evidence as we progress. I think we need to keep working on both ends of the probable connection for now, and I can certainly help with some further information regarding the probable parents, Thomas[5] & Mary.

Once again, it was another Will from a seemingly separate family that proved crucial. I obtained a copy some years ago, and the following is my transcription (there are a few gaps as the 'old English' of the Will is not easy to read):

Will of Samuel Polkinhorne written 17th January 1720/1; proved on 26th April 1721

In the name of God Amen I Samuel Polkinhorne of the parish of Crowan in the County of Cornwall, yeoman, being in perfect health & of sound & perfect mind & memory thanks be to God but considering the uncertainty of this mortal life do make & ordain this my last will & testament in manner & form following.
Item I bequeath my soul into the hands of Almighty God my creator hoping through the merits and mediation of Jesus Christ my saviour & redeemer (after this painful life is ended) having eternal life in the world that is to come.
Item I give & bequeath unto Charity my beloved wife the sum of five pounds yearly during the ????? of her natural life, to be paid her by quarterly payments equally to be divided by my executor hereafter named to be accounted from the day of my death. And in case my said wife shall go off from my executor to live then my will and pleasure is ????? further give & bequeath unto ??? of one of my beds the bolsters pillows sheets blankets & furniture ???? belonging for and during so long ??? case she shall happen to live and at the time of her death the same to remain & ????? to the sole & only use benefit & ????? of my executor as his own proper goods.
Item I give & bequeath unto my son Thos. Polkinhorne twenty shillings to be paid him within one year after my death by my executor hereafter named.
Item I give & bequeath unto my daughter C?????, wife of Thos. Marks the sum of three pounds of lawful money to be paid her within one year after my death by my executor hereafter named.
Item I give & bequeath unto my daughter Mary wife of Thos. Bosanko the sum of seven

pounds ????? shillings of lawful money of great Britain to be paid her within one year after my death by my executor hereafter named.
Item All the rest of my goods & chattels not herein or hereby given or bequeathed I do hereby give & bequeath unto my son John Polkinhorne whom I do hereby make & ordain the whole & sole executor of this my last will & testament revoking all former wills by me heretofore made. In witness whereof I have put my hand & seal this seventeenth day of January in the year of our Lord one thousand seven hundred and twenty.
Signed sealed & published in presence of us:

William
Davies S
aml. Polkinhorn (sign & seal of)
????? Davies
Saml. Callamy

Appended inventory value £115 raised by Henry Taylor & William Davies.

Clearly, for us, the most important detail is the 5th 'Item' which enables us to identify the wife of Thomas[5] as Mary Polkinhorne (the marriage appears in the Crowan parish records for 12th February 1708/9 as simply "Thomas Bosankoe & Mary.") You might also notice that the members of the Davies family witnessed the Will and drew up the inventory (you may remember this family appear in my 'History', associated with the Bosankoe family in Crowan.) It is also cleat that the testator was a relatively wealthy man bacause £115 was a very considerable sum at the time.

A little digging into the COPC records suggests that Samuel Polkinhorne was probably born in Breage in 1649 and married Charity Thomas in Breage in 1687, when he would have been aged about 37. It also seems that he had previously been married to Mary Clise, with whom he had several children, the last being Mary Polkinhorne born in 1685 in Breage. We can say then that Mary never really knew her biological mother (who died in 1686), and grew up knowing Samuel and Charity as her parents. At the time of her marriage, Mary would have been about 21 or 22, and her husband, Thomas[5] Bosankoe, aged about 25; exactly according to tradition. As you have noticed from the records, Thomas & Mary had several children and I would suggest the following baptism records are theirs (let me know if you don't have the details):

1709 Thomas
1710 Ann
1714 Thomas

1716 Alce
1718 Allice
1723 Dorcas
1726 William

I think it is reasonable to draw several conclusions now. It appears that their first child, Thomas, must have died in infancy as the next boy was also named Thomas (similarly with Alce born 1716 and Allice born 1718), and the burials are missing from the records. You will also notice the two gaps in this 18 year span of childbearing, and it is likely that another child was born about 1712, and yet another about 1720/1, with no baptism records surviving for these. We know that the first son was named after his paternal grandfather (Thomas^3), and the first daughter probably after her paternal grandmother {assumed to be Ann (unknown)}, according to the tradition of the time. The next born son (probably one of these missing baptisms from 1712 or 1720/1) was then traditionally named after his maternal grandfather. So, I concluded that the above legacy to daughter Mary in Samuel's will above is very strong supporting circumstantial evidence that your Samuel was indeed the son of Thomas^5 and Mary Polkinhorne, named after his maternal grandfather Samuel Polkinhorne, and that he was born either in 1712 or 1720/1. Although unlikely, we also cannot rule out perhaps one possible further birth after 1726 based on Mary's age.

So far, so good, and I would be interested to hear if you agree with my reasoning.

Regards, John.

1716 Alice
1718 Alice
1723 Dorcas
1726 William

I think it is reasonable to draw several conclusions now. So, I concluded that the above legacy to daughter Mary in Samuel's will above is very strong supporting circumstantial evidence that your Samuel was indeed the son of Thomas^2 and Mary Polkinhorne, named after his maternal grandfather Samuel Polkinhorne, and that he was born either in 1712 or 1720/1. Although unlikely, we also cannot rule out perhaps one possible further birth after 1726 based on Mary's age.

So far, so good, and I would be interested to hear if you agree with my reasoning.

Currently, nephew Thomas remains a mystery. All I can do is propose a theory for now and hope that future discoveries support my guesswork. As I said in my last email, we do have gaps in the family tree from Thomas[5] & Mary Polkinhorne which allow for more children, so my best guess for now is that your Samuel was born in 1712 and that a younger brother, John, was born about 1721. This yields the following possible family:

Children of Thomas[5] & Mary Polkinhorne:
1709 Thomas
1710 Ann
{1712 Samuel}
1714 Thomas
1716 Alce
1718 Allice
{1721 John}
1723 Dorcas
1726 William

My current theory regarding this family is outlined below in date order and at least makes sense of several entries in the parish records (all can be found on COPC):

- The last born, William (1726), died an infant and was buried at Crowan in June 1730.
- The daughter, Ann (1710), possibly married **Henry Webster** at Crowan on 11th December 1731.*There do appear to have been children from this union, but I have not pursued this line, so I do not know if they survived into adulthood.*
- The son, Samuel {1712}, married **Alice Rogers** at Crowan on 26th

Dec 1746, after banns (Alice was possibly the daughter of **Nicholas Rogers**, baptised at Illogan on 14th February 1719.) Samuel & Alice had just one daughter, **Allice Bosanko**, baptised at Crowan on 9th May 1747. *Unfortunately, mother and daughter died within a year of the birth – there are two Crowan burial records for **Alice Bosanko** (9th May 1747 and 5th April 1748) and we have no way of knowing which is the baby and which the mother.It is likely that Samuel was buried at Crowan on 5th August 1771.*

- The daughter, Dorcas (1723), married **William Jewel** at Crowan on 25th June 1749, after banns. *I have done no further research on this couple.*

- The daughter, Allice (1718), a spinster, married tinner **John Rogers** at Crowan on 20th January 1756, after banns. Both were of this parish, and witnesses were **Henry Trevenen** & **Thomas Bosanko**. *It is noteworthy that this groom has the same surname as Samuel's bride above and almost certainly has a family connection, perhaps as brother and sister, although I have not researched this further. I would just add that it is not surprising that there appear to be no children from this union as Allice (1718) would have been aged 38 when she married **John Rogers**.*

- The son John {1721}, a tinner, married spinster **Elizabeth Bastard** at Crowan on 9th July 1757, after banns. Both were of this parish, and witnesses were **Samuel Eva** & **John Coade**. John & Elizabeth had four children, all baptised in Wendron (Thomas on 28th January 1759, Elizabeth on 15th June 1760, John on 20th March 1763 , and Samuel on 21st October 1764.) *I have done no further research on this branch.*

- Samuel {1712}, described as a tinner, remarried at Crowan on 6th September 1762 to spinster **Florence Gundry**, following banns. Both were of the parish, and the witnesses were **Henry Odger** & **Thomas Bastard**. By this time, Florence (baptised at Helston on 9th July 1736, daughter of **Richard Gundry**) would have been aged 26 and Samuel aged 50. The couple had three children at Crowan (Samuel bpt. 3rd April 1763, Mary bpt. 4th August 1765, and Thomas bpt. 2nd March 1768.)

You will no doubt have noticed the occurrence of certain surnames in these records that also appear in the Will extracts that I sent previously, which I believe suggests there is some merit in the above theory. It does now account for several of the legacies in the 1783 Will of Thomas (**Darcus Juel** would either be his married sister aged 60, or possibly her daughter; **Allis Rogers** would be his married sister aged 65 – or perhaps her

daughter; **Samuel Bosanko** would be his nephew aged 15; **Florence Bosanko** would be his widowed sister-in-law; **Thomas Bosanko** would be his nephew by Florence; **John Bosanko** of Wendron would be his younger brother aged 62, and the main beneficiary & executor would be his 24 year old nephew **Thomas Bosanko** by Thomas & Elizabeth. The witnesses would all be family members.) If you draw the tree out according to the theory outlined above, I think it all works OK. However, I must repeat that there is no certainty in my proposed linkages so please treat it with caution until more evidence comes to light – possibly from Wills of these associated surnames.) Anyway, Fayth, I will be pleased to hear your opinion.

Regards, John

Here's the copy you require direct which might be clearer.
Note there are two entries for Bosanco in 1723, both have the child omitted through page damage.

Subject: early Samuel !

Hello again Kay

I have mentioned before my theory that the Samuel who md Florence Grundy was in fact a widower and that his first marr was to Alice Rogers in 1746 Crowan. The marr to Alice produced a daughter Alice in 1747 and there are then two Alice deaths - one in 1747 and another in 1748. These two deaths, if correct, would then leave Samuel a single person and able to marry again.
Florence Grundy was bapt 1727 and would make her of similar age to a Samuel born in 1723 (as I would guess the original one to be as he md in 1746 and could tie in also with a death in 1771 after the birth of three children!) As we all probably know, the PRs for Crowan have been so torn that they are impossible to read in many cases. On the page for 1723 however the surname Bosanko stands out twice during April. The first has no page left for child or father's given name, but the next entry does clearly say Thomas Bosanko fthr, without any part of page for child.
Now my query. Does anyone have any further knowledge of these entries from anywhere? (I have ordered the BTs but don't hold out much hope of anything better)
Does David Bosanquet have any reference which would sort this out for us amongst his wills etc?
We have scanned the register entry and hope it may transmit to you successfully in the attachment.

6. A pale, discrete elevation of the skin (a "wheal") approximately 6-10 mm in diameter should appear. If not, the skin test should be reapplied at least 2" from the first attempt.
7. After the needle is withdrawn, DO NOT massage the area OR apply any type of covering. (A reaction to a bandage, for example, could be misinterpreted as a positive PPD reaction.)
8. Activate the safety device immediately and dispose sharp in an approved container.
9. PPD solution must be kept refrigerated, not frozen, and MUST BE DISCARDED 30 DAYS AFTER THE VIAL IS OPENED!

READING (see illustration on page 11)

1. The TB skin test should be read 48-72 hours after administration, when the majority of reactions is maximal.
2. The reading should be done in a good light with the forearm supported on a firm surface.
3. Determine the presence or absence of palpable induration. DISREGARD ANY ERYTHEMA!
   - The induration may be located visually and then by direct palpation
   - The borders of induration can also be marked with a ballpoint pen by moving the pen laterally toward the induration and stopping at one border, and then repeating the process on the opposite side.

4. Using a flexible millimeter ruler or caliper device, measure the diameter of induration at its widest diameter transversely (side-to-side) to the long axis of the forearm.

RECORDING

Results are to be noted in millimeters of induration.

1. Words such as "positive" or "negative" are not permitted because persons with certain histories (e.g. immunosuppressed) or job descriptions (e.g. health care workers) are considered "positive" at various readings.
2. Where there is no induration, the record will indicate "0" mm.
3. Because skin tests are read only transversely, there will be only one number recorded.

Employee Health/Infection Control has access to various teaching tools about this topic, or will provide inservices whenever requested. If interested, call 287-2525.

Hi Fayth

I was just about to send this email when your latest one popped into my inbox. I have only read it briefly but can confirm that I do have a copy of the will that you quote, which I obtained from the CRO. I will give you a full transcript when I locate it. It is very late here, so I will study your email in full tomorrow -I have made just a few preliminary searches online which now prompt me to raise the following points for you to consider (forgive me if there is some overlap with what you have sent me, but this was about to be sent):

- The COPC lists a baptism on July 9th 1736 for Florence Gundry, dtr. of Richard Gundry. Although this baptism took place at Helston, the residence is recorded as Wendron, which suggests the family had properties in both of these neighbouring parishes – not uncommon for wealthier families at the time.

- The COPC also lists a burial (just two years after the above baptism) at Wendron on June 13th 1738 for a Florence Gundry. Since I have been unable to find any other baptisms for a Florence Gundry, how can we be certain that the Florence that later married Samuel Bosanko is the 1736 Florence and not another individual who does not appear in the baptism record? If she was indeed that one, then who does the burial refer to?

- The Cornwall Record Office has an online searchable catalogue. I searched for Richard Gundry which yielded a couple of promising results:

Referenced at AP/G/7289 is the 1782 Will of Richard Gundry, yeoman, of Helston;
Referenced at AD1807/2 is the subsequent 1784 Mortgage and assignment document detailing Richard's holdings at his death;

I have attached the second of these documents as a Word file since it is directly available as a transcription in the online catalogue. You will notice that this Richard was a wealthy man and, interestingly, the document mentions a **John Bosanko** as a tenant of one of his properties. Now, I do recall a branch of the Bosanko family in Helston at around this time, and the chances are that this branch is closely related to your Samuel. I will bear this in mind when searching through my paperwork.
(Unfortunately, a copy of the first document {Richard's Will} is only available via contacting the CRO directly – they will post you a copy for a nominal fee – but, if you think this Richard is indeed your Florence's father then there is a fair chance that she is mentioned in his Will.)

- The COPC lists the marriage on 6th September 1762 of Samuel Bosanko, tinner, & Florence Gundry, both of this parish (Crowan.) The witnesses to the marriage are listed as Henry Odger & **Thomas Bastard**, and I also recall that this last surname appears in one of the Bosanko(e) wills from Crowan. Once again, I will keep this in mind whilst searching my paperwork as it is also likely that Samuel is closely connected to the author of this Crowan Will.

Not sure where all this leads at the moment, but think there are some possible leads here. Will be in touch again soon.

Best wishes, John.

Captain John and Ellen obtained a block of about 600 acres of land between the O'Leary Road and Boulter Road. The house and barn still stand. The first house was built with split shingles and wooden pegs to hold the rafters together. The family travelled seven miles to West Cape School in an ox cart. granted them when Patterson's promises could not be realized and they had to find another place to live. Various accounts of the Sentners, including those of Caleb and George, Godlip's sons, were thereafter recorded in Montgomery's ledger.

The 1798 census, recorded in Duncan Campbell's, *History of Prince Edward Island* lists Caleb Sentner as living in Lot 34. There was one male between the ages of sixteen and sixty recorded — most likely Caleb. There were two females in the same age category, possibly Caleb's wife and mother. A man over sixty was listed (Godlip) and a male under sixteen. This young man could be either Caleb's son or his brother George. Somewhere between 1798 and September 12, 1801 Godlip Sentner died. His widow, Mary, was married by license to John Gibbon of Charlottetown on the 12 of September in 1801. Mary Sentner Gibbon died on December 24, 1829 at the supposed age of 107 or 111 years.

Godlip's two sons, George and Caleb, both married daughters of William Christopher Jetson/Judson and Ann McMullen.

I **Caleb Sentner** (c. 1754-1855)
On January 1, 1798 Caleb married Mary Judson (1776-1859). His marriage bond gave his occupation as tailor. He initially farmed on Lot 34 but later he became keeper and jailer of the Charlottetown jail. He died on September 6, 1855 at the reputed age of one hundred and one, and was buried in Long Pond Cemetery, Stanhope. His wife, Mary, died on June 19, 1859 at the age of eighty-three. They had seven children:

A. Mary was born c. 1798 at Hillsborough River, Lot 34, and died on November 16, 1887 in Charlottetown. She married **Cornelius Mabey.** (see Mabey history).
B. William was born on November 22, 1800. In the 1861 census he was registered as a grocer in Charlottetown with a wife and three females living with him. All belonged to the Methodist faith.
C. George was born on March 20, 1803. A blacksmith by trade he also farmed. His wife was born in Scotland and together they had a family of twelve, three of whom died in one year. They resettled several times moving from Charlottetown to Lot 52 in 1841, and to Lot 63 in 1861.
D. Catherine was born on February 7, 1806.
E. Eliza was born on October 2, 1809.
F. John was born in 1813 (another record stated 1816). He was a miller by trade, and a farmer, also. He married Flora MacPhail on July 12, 1825 and lived in the Bonshaw area. They had at least five children.
G. Caleb, junior, the youngest, was born on January 20, 1817. He married on October 18, 1837 Marianne Jenkins of Little York. They lived on the Loyalist Road where he farmed. Caleb and Marianne had seven children, five sons and two daughters. His second wife was Mary Ann Diamond who had been married to a Mr. Proude. They moved to Roseville in Lot 3, where they farmed. Caleb had six children, two sons and four daughters, by his second marriage. Caleb, junior, died on November 30, 1901 and was interred in the Miminegash United Church Cemetery.

II **George Sentner**
George Godlip's younger son, married on January 1, 1805 Ann (Nancy) Jetson/Judson, daughter of William Christopher Jetson and his wife Ann McMullen. They lived in Charlottetown from 1823, then moved to Village Green in the Pownal area in 1830. George farmed. Ann (Nancy) died at the age of eighty-nine and George, we are told, was killed at the age of eighty-one. They had seven children, five daughters and two sons:

A. Ann (Annie) was born in 1805.
B. Elizabeth (Betsy) was born on July 23, 1807 and died in 1850 at the age of forty-three. On October 2, 1824 she and **Charles Moore** of Lot 49 were married by Reverend Adin.
C. Maria Jane was born in 1809 (another record stated in 1823). She married **Thomas Burhoe** of Village Green. She died in 1898 and was buried in the Pownal Cemetery.

G. James Edward was born on April 2, 1821. He first married Sarah Burhoe, and after her death married Hannah McGregor. He and Sarah had three sons and three daughters.

Researched and submitted by Daniel Sentner.

JACOB SILLIKER

JACOB SILLIKER was an enlisted soldier with the Westchester County Militia in Connecticut. He emigrated to the Island of Saint John by way of the Loyalist town of Shelburne in Nova Scotia, arriving there from New York in 1783 with his wife and five children. When Silliker learned that Governor Patterson and several of the proprietors were seeking settlers he decided to join the eighteen Loyalist families preparing to depart for the Island. They arrived at Charlottetown on July 26, 1784.

Jacob's wife was Mary Strang, daughter of Daniel and Elizabeth Galpin Strang of Greenwich, Connecticut. She was a sister of Daniel Strang who was hanged as a spy in 1777 by the Revolutionary Forces, and an aunt of Daniel's son, Jesse Strang, who accompanied her and Jacob to Bedeque.

Jacob and Mary Silliker settled at Bedeque on part of their 500 acre land grant in Lot 26. The proprietor was John Townson. Jacob probably died in 1801 for his son Joseph was bonded administrator of the estate August 11th, of that year. Joseph's farm in Lower Bedeque was located on the north end of that property.

The children of Jacob and Mary Silliker were: Elizabeth, Mary, Joseph, Daniel, Strang and William who was born after the family came to Bedeque.

I. **Elizabeth Silliker** (1777-1826)
Elizabeth was born in 1777 and died in 1826. She married, by a license issued April 28, 1796, **Ephraim Allen** of Upper Cape, New Brunswick, where they lived with a family of ten children:

A. Benjamin was born in 1797 and named for his grandfather Allen. He married Phoebe Trenholm.
B. William was born in 1801 and died in 1876. His wife was Cynthia Brownell, (1806-1896).

He was born in Philadelphia in 1756, the son of Johannes Willelmus von Der Schmall (1731-1795) and his wife, Mary, who died in New York. "My Dear and Loving Mother Mary Small Departed This Life, In New York on Sunday Evening About Sunset The 29 Day of December in the Year of Our Lord And only Savior 1782 And She Was Buried In St. Paul's Church Yard". Then follows a description of the exact location of her grave.

It is not known how many brothers and sisters John had, but one brother, Thomas, also a Loyalist, lived in New Brunswick, around the Miramichi.

The above and the following are a few entries chosen from John's diary, which he kept during the Rebellion:

"Entered the Bridgemaster's Department under Robert Fenwick, Captain of Artillery, 15 June 1788.

Destroyed Schulykil bridge on 17th at 12 o'clock at night. Building pontoon bridges.

"Nov. 28th. We hove anchor and sailed for Kingsferry. When we came within ½ mile we saw cannon planted on both sides of river, and saw the rebels crossing with their cannon and baggage. We fired 7 shot at them with a 24 pr. loaded with round and grape shot.

We had like to have sunk one of there boats, witch made them leave off crossen for that day. That night dropped down within ¾ mile of Dobles ferry and sent some men ashore to see what they could get at, witch they soon returned with 11 negroes, witch was 1 man and 2 women, 2 boys and 6 girls. Then they went ashore again and fetcht on board 2 oxen and 2 cows and a great number of cloths.

Steve Gordon departed this life on board a privateer brig with the Black Fever the 20th day of May, 1779.

April 1 The rebels began to fire on us and continued firing until the 12th sometimes 300 shot and shells a day.

April 7 they had a reinforcement of men witch caused them to ring thear bells and be in great spirits.

April 8 We had 10 sail of shippin come by Port Muterre and come to anchor below Charleston.

April 12 We began to fire on the rebels works.

April 13 At night a party of our men crost Cooper River.

April 21 The rebels sent two flags to us and the contents was that they wanted to March out with colors flying and 4 loaded wagons and three of thear best ships. 2 schooners and 1 ship with 45 women and a great number of children.

May 7 We took Fort Muterry.

May 8 morn We sent in a flag and demanded the town, then they desired to have two hours and after that, two hours more and so they went on until the 9th day at night, then they said they would not give heed to our percedings, then we fell to cannonading again.

May 11 Set fire to the town in the morning. In the afternoon they sent in a flag and gave up the town.

May 12 We marched into the town and took possession of the magasenes and stores.

On May 22, 1783 he received his demise shortly before sailing for New Brunswick. His Masonic Apron, real lambskin, his demit certificate and a Masonic emblem are still treasured possessions of his descendants.

John left New York on Saturday, the 12th day of July, 1783, and after fourteen days sailing he landed at Saint John, New Brunswick. He was given a grant of land and raised the frame for his house at Carleton, a little below the reversing falls. On November 6, 1785 he married Jemime Ogden, who died soon after the birth of their son, John, junior.

On June 11, 1790 John Small landed at Bedeque and immediately followed his trade as a shipwright. His account book entitled "An Accompt of Shipwright Work that I Did Since I Came to the Island of St. John's 1790" and his diary have provided much of the information contained in this sketch.

ONCE REGLAS PARA TENER MEJOR HIGIENE DEL SUEÑO

1. Duerma todo el tiempo necesario para sentirse descansado(a) y saludable al día siguiente, pero no más de eso. El acortar el tiempo pasado en la cama parece fortalecer el sueño; el tiempo en cama en cantidades excesivas parece estar relacionado con el sueño fragmentado y no profundo.
2. Una hora regular para despertar por la mañana ayuda a desarrollar un ciclo regular y finalmente nos lleva a establecer una hora regular para empezar a dormir.
3. Una cantidad diaria de ejercicio estable, probablemente ayuda a profundizar el sueño; el ejercicio ocasional no necesariamente ayuda a mejorar el sueño la noche siguiente.
4. Los ruidos fuertes ocasionales (ej. Aviones volando) interrumpen el sueño aún para aquellas personas quienes normalmente no se despiertan con el ruido y no se acuerdan al despertar por la mañana. Los dormitorios con reducción de ruido pueden ser de ayuda a aquellas personas que tienen que dormir cerca del ruido.
5. Aunque en una habitación excesivamente calurosa se interrumpe el sueño, no existe evidencia de que una habitación excesivamente fría fortalezca el sueño.
6. El hambre interrumpe el sueño, un bocadillo ligero puede ayudar al sueño.
7. Una pastilla para dormir ocasional puede ser algo de ayuda, pero el uso crónico de pastillas puede resultar ineficaz para la mayoría de las personas que sufren de insomnio.
8. El consumo de cafeína por la tarde interrumpe el sueño aún para aquellas personas que sienten que no.
9. El consumo de alcohol ayuda a personas tensas a quedarse dormidas con más facilidad, pero el sueño resultante es fragmentado.
10. Las personas que se sienten enojadas y frustradas porque no pueden quedarse dormidas, no deben tratar y tratar de dormirse, en vez de eso deben prender la luz y hacer algo diferente.
11. El uso crónico del tabaco interrumpe el sueño.

TERAPIA DE RESTRICCIÓN DEL SUEÑO

El propósito de este método de comportamiento es ayudarle a aprender de nuevo como dormir más en un periodo de tiempo más consolidado. Note las palabras: **APRENDER DE NUEVO**.
¡Es necesario **OLVIDAR** su patrón de sueño actual!

1. Para empezar, calcule el promedio de horas en total que usted logra dormir cada noche.
2. Escoja una hora razonable para despertarse que sea adecuada para su horario.
3. Escoja la hora de acostarse a dormir basándose en el promedio de horas que usted logra dormir. Usted no quiere pasar **EN CAMA** más que este número de horas. **EJEMPLO:** Usted duerme un promedio de 5 horas cada noche y tiene que levantarse a las 6AM. **No** se acueste antes de la 1AM.
4. No se olvide levantarse a la hora programada, sin tener en cuenta cuanto durmió.
5. **¡¡¡No duerma la siesta!!!**
6. Una vez que usted esté durmiendo aproximadamente un 90% del tiempo que está en cama con regularidad, podrá acostarse 20 minutos antes.
7. Cada vez que usted alcance su meta de dormir un 90% del tiempo que está en cama con regularidad, acuéstese 20 minutos más temprano, hasta lograr una hora de acostarse razonable para su edad y su horario.
8. Siga practicando buenos hábitos del sueño, especialmente en relación al consumo de cafeína y alcohol. Utilice técnicas de relajación a la hora de acostarse.
9. Cuidado--Nunca limite su sueño a menos de 3 ó 4 horas, aunque piense que duerme un promedio de menos de 3 ó 4 horas.
